

The diagram illustrates the addition of 14 and 26 using base ten blocks. On the left, 14 is represented by 1 ten rod and 4 one units. In the middle, 26 is represented by 2 ten rods and 6 one units. On the right, the sum 40 is represented by 4 ten rods. The blocks are arranged in three rows: the top row shows the tens rods, the middle row shows the ones units, and the bottom row shows the final sum in tens rods.
